# SeamXY - AI Stylist Onboarding System

## Technical Specification Document

**Project:** AI Stylist Clone Feature
**Timeline:** Week 1 Build (5 Days)
**Budget:** $25,000 (6-month bootstrap)
**Date:** December 2024

---

## TABLE OF CONTENTS

1. Executive Summary
2. Database Schema Updates
3. The 60 Training Questions
4. System Prompt Generation
5. UI/UX Components
6. API Endpoints
7. Backend Logic
8. Security & Validation
9. Analytics & Monitoring
10. Implementation Timeline
11. Success Criteria
12. Budget & Revenue Projections
13. Risks & Mitigation
14. Next Steps

---

## 1. EXECUTIVE SUMMARY

### What We're Building

A system that allows individual stylists to create personalized AI clones of themselves by answering questions and uploading portfolio content. The AI clone mirrors their aesthetic, communication style, and expertise to chat

with customers 24/7.

## User Flow

1. Stylist signs up → completes training questionnaire (60 questions)
2. System generates custom OpenAI system prompt based on their answers
3. Stylist uploads portfolio images (10-20 pieces)
4. AI references portfolio in conversations
5. Customer chats with stylist's AI clone at seamxy.com/stylists/[handle]
6. When AI can't help → suggests booking real stylist

## Business Model

**AI Subscription (Premium):**

- Customer pays: $9.99/month
- Stylist gets: $7.99 (80%)
- Platform gets: $2.00 (20%)

**Stylist Booking:**

- Customer pays: $500-5000
- Stylist gets: $425-4250 (85%)
- Platform gets: $75-750 (15%)

**Free Tier:**

- 5 messages/month per stylist
- No cost to customer or stylist

## 5-Day Timeline

- **Day 1-2:** Database schema + Training questionnaire
- **Day 3:** Prompt generation engine
- **Day 4:** Chat interface + Credit system
- **Day 5:** Testing + Polish + Deploy

---

# 2. DATABASE SCHEMA UPDATES

## New Tables Required

### aiTrainingResponses

```
- id (varchar, primary key)
- stylistId (varchar, references stylistProfiles.id)
- questionId (varchar, not null)
- questionText (text, not null)
- answer (text, not null)
- category (text, not null) // "philosophy", "client_approach", "expertise", "personality"
- createdAt (timestamp)
```

### aiStylistPrompts

```
- id (varchar, primary key)
- stylistId (varchar, unique, references stylistProfiles.id)
- systemPrompt (text, not null) // Full OpenAI system prompt
- promptVersion (integer, default 1)
- trainingCompletedAt (timestamp)
- isActive (boolean, default true)
- createdAt (timestamp)
- updatedAt (timestamp)
```

### conversationCredits

```
- id (varchar, primary key)
- userId (varchar, references users.id)
- stylistId (varchar, references stylistProfiles.id)
- creditsRemaining (integer, default 5)
- periodStart (timestamp)
- periodEnd (timestamp) // Reset monthly
- createdAt (timestamp)
- updatedAt (timestamp)
```

## Updates to Existing Tables

**aiChatSessions** - Add these fields:

- stylistId (varchar, references stylistProfiles.id)

- messageCount (integer, default 0)
- isFreeTier (boolean, default true)

---

# 3. THE 60 TRAINING QUESTIONS

## SECTION 1: STYLE PHILOSOPHY (15 Questions)

**Purpose:** Understand their core aesthetic and approach to fashion

**PHIL_01**

- Question: "Describe your personal design aesthetic in 3-5 words."
- Type: Short text
- Required: Yes
- Placeholder: "e.g., 'Modern minimalist with streetwear edge'"

**PHIL_02**

- Question: "Who are your top 3 style icons or inspirations?"
- Type: Short text
- Required: Yes
- Placeholder: "Can be designers, celebrities, historical figures, or movements"

**PHIL_03**

- Question: "What fashion rule do you ALWAYS break?"
- Type: Short text
- Required: Yes
- Example: "Mixing metals", "Black and navy together", "Socks with sandals"

**PHIL_04**

- Question: "Complete this sentence: 'Fashion is...'"
- Type: Long text
- Required: Yes
- Note: Your personal philosophy on what fashion means

**PHIL_05**

- Question: "How would you describe your approach to color?"
- Type: Single select
- Required: Yes
- Options:
  - Bold and vibrant - more is more
  - Monochromatic and tonal - sophisticated restraint
  - Neutral base with strategic pops
  - Whatever feels right in the moment
  - Color psychology drives my choices

**PHIL_06**

- Question: "Your signature look always includes:"
- Type: Short text
- Required: No
- Example: "layered jewelry", "an oversized blazer", "statement shoes"

**PHIL_07**

- Question: "What's more important to you: comfort or impact?"
- Type: Scale (1-10)
- Required: Yes
- Left label: "Comfort always wins"
- Right label: "Fashion is pain (worth it)"

**PHIL_08**

- Question: "How do you balance trends vs. timeless pieces?"
- Type: Long text
- Required: Yes
- Note: Explain your philosophy

**PHIL_09**

- Question: "What's a trend you absolutely hate right now?"
- Type: Short text
- Required: No
- Note: Be honest! This helps capture your voice

**PHIL_10**

- Question: "If you could only wear one brand for the rest of your life, what would it be and why?"
- Type: Long text
- Required: Yes

**PHIL_11**

- Question: "What does 'elevated basics' mean to you?"
- Type: Long text
- Required: Yes

**PHIL_12**

- Question: "Your approach to accessories is:"
- Type: Single select
- Required: Yes
- Options:
  - Less is more - one statement piece
  - Layered and abundant
  - Functional first, fashionable second
  - Accessories make the outfit
  - I don't really focus on accessories

**PHIL_13**

- Question: "What's your hot take on fast fashion?"
- Type: Long text
- Required: Yes

**PHIL_14**

- Question: "Describe your dream closet in one paragraph."
- Type: Long text
- Required: Yes
- Placeholder: "Paint the picture - what's in it, how it feels, the vibe"

**PHIL_15**

- Question: "What's your go-to advice for someone who says 'I have nothing to wear'?"
- Type: Long text
- Required: Yes

---

## SECTION 2: CLIENT APPROACH (15 Questions)

**Purpose:** Capture how they work with clients and solve problems

**CLIENT_01**

- Question: "When a new client comes to you, what's the FIRST thing you ask them?"
- Type: Short text
- Required: Yes

**CLIENT_02**

- Question: "Walk through your typical styling process from consultation to final look."
- Type: Long text
- Required: Yes
- Note: Step by step - this helps the AI mimic your workflow

**CLIENT_03**

- Question: "How do you handle a client who says 'I don't know what I want'?"
- Type: Long text
- Required: Yes

**CLIENT_04**

- Question: "A client loves a piece that you think is WRONG for them. What do you do?"
- Type: Single select
- Required: Yes
- Options:
  - Tell them directly - honesty is my policy
  - Gently redirect with better options
  - Let them have it - it's their style journey
  - Show them why it doesn't work (educate)
  - Find a compromise version

**CLIENT_05**

- Question: "How do you assess someone's body type and what it needs?"
- Type: Long text
- Required: Yes
- Note: Your approach to fit and proportion

**CLIENT_06**

- Question: "What's your philosophy on budget?"
- Type: Single select
- Required: Yes
- Options:
  - Great style is possible at any price point
  - Invest in key pieces, save on trends
  - Quality over quantity always
  - Mix high and low strategically
  - If you can't afford good, don't buy at all

**CLIENT_07**

- Question: "How do you handle someone who wants to dress 'younger' or 'older' than their age?"
- Type: Long text

- Required: Yes

**CLIENT_08**

- Question: "A client shows you a Pinterest board of looks they love. What's your next move?"
- Type: Long text
- Required: Yes

**CLIENT_09**

- Question: "How direct are you with feedback? Give an example."
- Type: Long text
- Required: Yes
- Note: This captures your communication style

**CLIENT_10**

- Question: "What's the most challenging fit situation you've solved?"
- Type: Long text
- Required: True
- Note: Tell the story - helps AI learn your problem-solving

**CLIENT_11**

- Question: "How do you build confidence in someone who's uncomfortable with their body?"
- Type: Long text
- Required: Yes

**CLIENT_12**

- Question: "Your approach to sustainable/ethical fashion is:"
- Type: Single select
- Required: Yes
- Options:
  - It's a priority - I only recommend sustainable brands
  - I balance sustainability with other factors
  - I focus on longevity over fast trends

- It's the client's choice, not mine to push
- Not really a focus for me

**CLIENT_13**

- Question: "What do you do when a client's lifestyle doesn't match their style goals?"
- Type: Long text
- Required: Yes
- Example: wants high fashion but works from home

**CLIENT_14**

- Question: "How do you help someone develop their OWN style vs. copying yours?"
- Type: Long text
- Required: Yes

**CLIENT_15**

- Question: "What's your biggest styling pet peeve?"
- Type: Short text
- Required: No
- Note: What drives you crazy that people do?

---

## SECTION 3: EXPERTISE & SPECIALTIES (15 Questions)

**Purpose:** Define what they're best at and who they serve

**EXPERT_01**

- Question: "What body types do you specialize in or have the most experience with?"
- Type: Multi-select
- Required: Yes
- Options:
  - Petite (under 5'4")
  - Tall (over 5'9")

    - Plus-size
    - Athletic/muscular
    - Curvy/hourglass
    - Straight/rectangular
    - All body types equally

**EXPERT_02**

- Question: "What occasions do you style most often?"
- Type: Multi-select
- Required: Yes
- Options:
    - Everyday/casual
    - Professional/business
    - Formal events
    - Weddings (bride)
    - Weddings (guests/party)
    - Red carpet/awards
    - Performance/stage
    - Editorial/photoshoots
    - Special occasions (prom, quinceañera, etc.)

**EXPERT_03**

- Question: "What's your #1 area of expertise?"
- Type: Short text
- Required: Yes
- Note: The thing you're absolutely THE BEST at

**EXPERT_04**

- Question: "What demographic do you work with most?"
- Type: Multi-select

- Required: Yes
- Options:
  - Women 18-30
  - Women 30-50
  - Women 50+
  - Men 18-30
  - Men 30-50
  - Men 50+
  - Non-binary/gender fluid
  - I work across all demographics

**EXPERT_05**

- Question: "Your go-to fix for 'nothing fits right' is:"
- Type: Long text
- Required: Yes

**EXPERT_06**

- Question: "How do you approach styling for different seasons?"
- Type: Long text
- Required: Yes
- Note: Your seasonal styling philosophy

**EXPERT_07**

- Question: "What's your expertise with wedding styling?"
- Type: Single select
- Required: Yes
- Options:
  - Bridal gowns specialist
  - Groom/groomsmen expert
  - Full wedding party coordinator

    - Wedding guest styling
    - Not my specialty

**EXPERT_08**

- Question: "If someone needs a last-minute outfit for [specific occasion], what's your process?"
- Type: Long text
- Required: Yes
- Note: Fill in the occasion you handle best

**EXPERT_09**

- Question: "What brands do you recommend most often and why?"
- Type: Long text
- Required: Yes
- Note: List 5-10 brands with brief reasons

**EXPERT_10**

- Question: "What's your specialty in streetwear/casual styling?"
- Type: Single select
- Required: No
- Options:
    - Hypebeast/limited edition culture
    - Elevated basics
    - Vintage/thrift mixing
    - Athleisure
    - Not my focus

**EXPERT_11**

- Question: "Your approach to formal/black-tie styling:"
- Type: Long text
- Required: Yes

**EXPERT_12**

- Question: "What's a styling challenge you DON'T feel confident solving?"
- Type: Short text
- Required: Yes
- Note: Honesty helps - AI will know when to suggest booking you

**EXPERT_13**

- Question: "How do you style for different cultural/traditional events?"
- Type: Long text
- Required: Yes

**EXPERT_14**

- Question: "What's your edge? What makes YOUR styling different from everyone else's?"
- Type: Long text
- Required: Yes

**EXPERT_15**

- Question: "If you could only give ONE piece of styling advice, what would it be?"
- Type: Short text
- Required: Yes

---

## SECTION 4: PERSONALITY & VOICE (15 Questions)

**Purpose:** Capture their unique communication style and personality

**PERSONALITY_01**

- Question: "How would your clients describe your communication style?"
- Type: Multi-select
- Required: Yes
- Options:
  - Warm and friendly - like talking to a bestie
  - Professional and polished

    - Direct and no-nonsense
    - Playful and witty
    - Thoughtful and detailed
    - Inspirational and motivating

**PERSONALITY_02**

- Question: "Are you more casual or formal in how you talk?"
- Type: Scale (1-10)
- Required: Yes
- Left label: "Super casual (hey girl!)"
- Right label: "Very formal (Good afternoon)"

**PERSONALITY_03**

- Question: "Do you use emojis when texting clients?"
- Type: Single select
- Required: Yes
- Options:
    - Yes, all the time! ✨ 💕
    - Sometimes, when appropriate
    - Rarely
    - Never - not professional

**PERSONALITY_04**

- Question: "What's your catchphrase or something you say ALL the time?"
- Type: Short text
- Required: No
- Example: "Trust the process", "When in doubt, add a belt"

**PERSONALITY_05**

- Question: "How do you hype someone up when they need confidence?"

- Type: Long text
- Required: Yes
- Note: Write exactly what you'd say

**PERSONALITY_06**

- Question: "Your sense of humor is:"
- Type: Single select
- Required: Yes
- Options:
  - Witty and clever
  - Sarcastic
  - Self-deprecating
  - Dad jokes level
  - Dry/deadpan
  - I keep it professional

**PERSONALITY_07**

- Question: "Someone asks 'Does this make me look fat?' You respond:"
- Type: Long text
- Required: Yes
- Note: Write your actual response - captures your tact and honesty

**PERSONALITY_08**

- Question: "How much do you curse in conversation?"
- Type: Single select
- Required: Yes
- Options:
  - Never - keep it clean
  - Occasionally for emphasis
  - Yeah, I fucking curse

- Depends on the vibe

**PERSONALITY_09**

- Question: "Are you more hype or more chill?"
- Type: Scale (1-10)
- Required: Yes
- Left label: "Zen calm"
- Right label: "YASSS QUEEN energy"

**PERSONALITY_10**

- Question: "Do you give tough love or gentle encouragement?"
- Type: Scale (1-10)
- Required: Yes
- Left label: "Gentle encouragement"
- Right label: "Tough love"

**PERSONALITY_11**

- Question: "Write a typical opening message you'd send a new client:"
- Type: Long text
- Required: Yes
- Note: This captures your greeting style

**PERSONALITY_12**

- Question: "How do you sign off messages?"
- Type: Short text
- Required: Yes
- Example: "xoxo", "Best", "-Sara", "Stay fresh"

**PERSONALITY_13**

- Question: "Someone sends you a truly terrible outfit combo. Your response:"
- Type: Long text

- Required: Yes
- Note: Be honest about your actual reaction

**PERSONALITY_14**

- Question: "What's your vibe? Pick 3:"
- Type: Multi-select (limit 3)
- Required: Yes
- Options:
  - Bougie
  - Down-to-earth
  - Edgy
  - Sophisticated
  - Fun
  - Artistic
  - Practical
  - Dreamy
  - Bold
  - Minimal
  - Extra

**PERSONALITY_15**

- Question: "If your AI could only communicate ONE aspect of your personality, what should it be?"
- Type: Short text
- Required: Yes

---

## PORTFOLIO CONTEXT QUESTIONS (Dynamic)

**Asked for each uploaded portfolio image:**

1. **What's this look/piece?**
   - Type: Short text

- Required: Yes
- Example: "Custom bridal gown for outdoor wedding"

2. **Who was this for? (Without names if confidential)**
   - Type: Short text
   - Required: Yes
   - Example: "Bride with hourglass figure, traditional but modern taste"
3. **What problem did this solve or what was the client's need?**
   - Type: Long text
   - Required: Yes
4. **What makes this piece special or unique?**
   - Type: Long text
   - Required: Yes
5. **What occasion/event was this for?**
   - Type: Single select
   - Required: Yes
   - Options: Wedding, Red carpet, Editorial shoot, Music video/performance, Casual everyday, Business/professional, Special event, Other

---

# 4. SYSTEM PROMPT GENERATION

## Prompt Builder Algorithm

**Process:**

1. Fetch all training responses for stylist
2. Organize responses by category (philosophy, approach, expertise, personality)
3. Extract key attributes (tone scale, directness scale, formality level)
4. Build structured system prompt
5. Include portfolio references with context
6. Define boundaries (what AI can/cannot do)
7. Store in aiStylistPrompts table

## Prompt Structure Template

You are [StylistName]AI, the AI assistant for [StylistName], a professional fashion stylist.

# ABOUT [STYLIST]
[Bio and location]
[Specialties and experience]

# STYLE PHILOSOPHY
[Core aesthetic from PHIL_01]
[Style icons from PHIL_02]
[Approach to color from PHIL_05]
[Fashion philosophy from PHIL_04]
[Key advice from EXPERT_15]

# HOW [STYLIST] WORKS WITH CLIENTS
First Question: "[CLIENT_01 answer]"
Styling Process: [CLIENT_02 answer]
Budget Philosophy: [CLIENT_06 answer]
Body Type Assessment: [CLIENT_05 answer]

# EXPERTISE & SPECIALIZATION
Primary Expertise: [EXPERT_03 answer]
Body Types: [EXPERT_01 selections]
Occasions: [EXPERT_02 selections]
Demographics: [EXPERT_04 selections]
Go-To Brands: [EXPERT_09 answer]
Unique Differentiator: [EXPERT_14 answer]

# COMMUNICATION STYLE & PERSONALITY
Tone: [PERSONALITY_01 selections]
Formality Level: [PERSONALITY_02 scale]/10
Emoji Usage: [PERSONALITY_03 answer]
Catchphrase: "[PERSONALITY_04 answer]"
Sign-off: [PERSONALITY_12 answer]
Vibe: [PERSONALITY_14 selections]

# PORTFOLIO EXAMPLES
[For each portfolio item with context]

# BOUNDARIES
What AI CAN Do:
- Answer styling questions

- Give personalized advice
- Reference portfolio examples
- Recommend brands
- Provide encouragement

What AI CANNOT Do:
- Make final decisions for complex custom work
- Guarantee perfect fit without measurements
- Promise availability or pricing

When to Suggest Booking Real [Stylist]:
- Hands-on fitting needed
- Complex custom design work
- In-person consultation valuable
- Question beyond AI capability

# CONVERSATION GUIDELINES
- Stay in character as [StylistName]AI
- Use first person ("I recommend...")
- Be specific with brands/techniques
- Ask questions to understand context
- Show personality
- Reference portfolio when relevant
- Know when to defer to human

### Key Extraction Functions

- **extractCommunicationStyle()** - Maps personality questions to tone
- **extractToneScale()** - Converts to 1-10 formality scale
- **extractDirectnessScale()** - Gentle vs tough love (1-10)
- **extractEmojiPreference()** - Emoji usage policy
- **extractCursingPolicy()** - Language guidelines

## 5. UI/UX COMPONENTS

### Component 1: Training Questionnaire Page

**Route:** /stylist/onboarding/training

**Features:**

- Progress bar (Section 1/4, Question 5/15)
- Auto-save responses every 30 seconds
- Skip and return later
- Section overview with completion status
- Estimated time remaining
- "Why we ask this" tooltips
- Examples for inspiration

**Key Elements:**

- ProgressIndicator component
- SectionNav (4 sections)
- QuestionCard with examples
- NavigationButtons (prev/next/skip)

---

## Component 2: Portfolio Upload & Context

**Route:** /stylist/onboarding/portfolio

**Features:**

- Drag and drop image upload
- Image preview grid
- Context questions after each upload
- Reorder images (drag to prioritize)
- Crop/rotate tool
- Delete and re-upload
- Batch upload support
- Progress indicator (10/10 minimum uploaded)

**Key Elements:**

- ImageUploadZone (5MB max, jpg/png/webp)
- PortfolioGrid (masonry layout)

- ImageContextModal
- CompletionStatus (10 min, 20 recommended)

---

## Component 3: AI Preview & Testing

**Route:** /stylist/onboarding/preview

**Features:**

- Live chat interface to test their AI
- Side-by-side view: answers + AI responses
- "Does this sound like you?" feedback
- Regenerate prompt with adjustments
- Test scenarios provided
- Invite colleague to test

**Key Elements:**

- PromptGenerationStatus
- TestChatInterface
- FeedbackPanel with rating
- TestScenarios (wedding, body type, budget)

---

## Component 4: Stylist Public Profile Page

**Route:** /stylists/[handle]

**Sections:**

- Hero (photo, name, bio, stats)
- "Chat with AI" prominent CTA
- Portfolio gallery (masonry layout)
- About section
- Booking section with pricing
- Reviews and social proof

**Key Elements:**

- HeroSection with avatar
- Stats (followers, rating, reviews)
- PortfolioSection gallery
- BookingSection with CTAs

---

## Component 5: AI Chat Interface

**Route:** /chat/[stylistHandle] or Modal

**Features:**

- Real-time chat with AI
- Message history persistence
- Credits counter (5 free messages)
- Upgrade prompt when exhausted
- Typing indicators
- Image upload for inspiration
- "Book real stylist" CTA at strategic moments
- Portfolio image references in responses

**Key Elements:**

- ChatHeader (avatar, status, credits)
- MessageList with timestamps
- TypingIndicator
- MessageInput with image upload
- UpgradePrompt
- BookingSuggestionBanner

---

**Features:**

- Free vs Premium comparison table
- Payment form (Stripe)
- Monthly/annual toggle
- Cancel anytime messaging

**Key Elements:**

- ComparisonTable (2 columns)
- BillingToggle
- PaymentForm (Stripe Elements)
- FinePrint (stylist gets 80%)

---

# 6. API ENDPOINTS

## Onboarding APIs

**POST /api/stylist/training/response**

- Body: { stylistId, questionId, answer, category }
- Response: { success, responseId }

**GET /api/stylist/training/progress/:stylistId**

- Response: { totalQuestions, answeredQuestions, completionPercentage, sectionProgress }

**POST /api/stylist/portfolio/upload**

- Body: FormData with image
- Response: { imageUrl, s3Key, imageId }

**POST /api/stylist/portfolio/context**

- Body: { imageId, stylistId, context }
- Response: { success }

**POST /api/stylist/ai/generate-prompt**

**POST /api/stylist/ai/test**

- Body: { stylistId, testMessage }
- Response: { aiResponse, tokensUsed }

**POST /api/stylist/ai/activate**

- Body: { stylistId }
- Response: { success, liveUrl }

## Customer Chat APIs

**POST /api/chat/start**

- Body: { userId, stylistId }
- Response: { sessionId, creditsRemaining, canSendMessage }

**POST /api/chat/message**

- Body: { sessionId, message, imageUrl? }
- Response: { aiResponse, portfolioReference?, suggestBooking, creditsRemaining }

**GET /api/chat/credits/:userId/:stylistId**

- Response: { creditsRemaining, periodStart, periodEnd, isPremium }

**POST /api/subscriptions/upgrade**

- Body: { userId, stylistId, planId, paymentMethodId }
- Response: { subscriptionId, status, currentPeriodEnd }

## Stylist Dashboard APIs

**GET /api/stylist/analytics/:stylistId**

- Response: { totalConversations, activeSubscribers, monthlyRevenue, bookingRequests, topQuestions }

**GET /api/stylist/conversations/:stylistId**

- Query: { page, limit }
- Response: { conversations[], pagination }

**PUT /api/stylist/ai/prompt/:stylistId**

- Body: { regenerate, manualAdjustments? }
- Response: { promptId, updated }

---

# 7. BACKEND LOGIC

## Critical Functions

### 1. generateSystemPrompt(stylistId)

- Fetches all training responses
- Organizes by category
- Extracts key attributes
- Builds structured prompt
- Stores in aiStylistPrompts table

### 2. checkAndDeductCredit(userId, stylistId)

- Checks premium subscription status
- If premium: unlimited messages
- If free tier: checks remaining credits
- Deducts 1 credit
- Returns { canSend, remaining }

### 3. handleAIChat(sessionId, userMessage, imageUrl?)

- Gets session and stylist info
- Loads custom system prompt
- Builds message history
- Calls OpenAI API
- Detects portfolio references
- Checks if should suggest booking
- Saves to session

- Returns { aiResponse, portfolioReference?, suggestBooking }

**4. detectBookingSuggestion(userMessage, aiResponse, conversationLength)**

- Keywords: custom, bespoke, in person, fitting, wedding dress, complex
- If user mentions booking keywords: true
- If AI mentions "book": true
- If conversation > 10 messages: true
- Returns boolean

**5. processSubscriptionRevenue(subscriptionId)**

- Gets subscription details
- Calculates 80/20 split
- Records stylist invoice
- Platform keeps difference via Stripe

---

# 8. SECURITY & VALIDATION

## Input Validation

**Training Responses:**

- 1-5000 characters
- Required fields enforced
- Category must match enum

**Chat Messages:**

- 1-1000 characters
- Sanitized against XSS
- Rate limited

**Image Uploads:**

- Max 5MB
- jpg/png/webp only

- S3 secure upload

### Rate Limiting

| Action | Limit |
|---|---|
| Free messages per day | 20 across all stylists |
| Training submissions/hour | 100 |
| AI test calls/hour | 50 |

### Cost Controls

- Max tokens per message: 500
- Max monthly spend per stylist: $100
- Emergency shutoff: $1000 platform-wide
- Daily usage tracking and alerts

**CRITICAL:** Set hard limits in OpenAI dashboard to prevent runaway costs.

---

## 9. ANALYTICS & MONITORING

### Stylist Dashboard Metrics

**Engagement:**

- Total conversations
- Unique users
- Average messages per conversation

**Revenue:**

- Active subscribers
- Monthly recurring revenue (MRR)
- Booking requests
- Total earnings

**AI Performance:**

- Average response time

- Customer satisfaction score
- Top questions asked

**Conversion:**

- Free to premium rate
- Chat to booking rate

### Platform Metrics

**Growth:**

- Total stylists
- Active stylists
- Total users

**Revenue:**

- Total MRR
- Average revenue per stylist

**Usage:**

- Total conversations
- Conversations per day

**Costs:**

- Monthly OpenAI cost
- Cost per conversation
- Profit margin

---

## 10. IMPLEMENTATION TIMELINE

### Week 1: Build Sprint (5 Days)

#### Day 1-2: Foundation

- ✓ Database schema migration
- ✓ Training questionnaire UI (all 60 questions)

- ✓ Response storage API
- ✓ Progress tracking
- ✓ Auto-save functionality

**Day 3: AI Engine**

- ✓ Portfolio upload system (S3)
- ✓ Context questions per image
- ✓ Prompt generation algorithm
- ✓ OpenAI integration
- ✓ Testing interface

**Day 4: Customer Experience**

- ✓ Chat UI component
- ✓ Message handling API
- ✓ Credit system implementation
- ✓ Subscription paywall
- ✓ Stripe integration

**Day 5: Polish & Launch**

- ✓ Booking suggestion logic
- ✓ Stylist profile pages (public view)
- ✓ Testing with Sara
- ✓ Bug fixes
- ✓ Deploy to production

---

## 11. SUCCESS CRITERIA

### Definition of Done (Week 1)

✓ Stylist can complete 60 questions in 30-45 minutes
✓ Stylist can upload 10+ portfolio images with context
✓ System generates coherent, personalized prompt automatically

✓ Stylist can test chat with their AI
✓ AI response sounds like the stylist (validated by Sara)
✓ Chat interface works for customers
✓ Free tier (5 messages) enforced correctly
✓ Upgrade to premium flow works end-to-end
✓ Booking suggestion appears at right moments
✓ Revenue split calculated correctly (80/20)

### Quality Checklist

| Component | Must Work |
|---|---|
| Training Questions | All 60 display, save, and can be edited |
| Portfolio Upload | Images upload to S3, context saved, display correctly |
| AI Generation | Prompt generated <10 seconds, sounds authentic |
| Chat Interface | Messages send/receive, typing indicators, history persists |
| Credit System | 5 free messages enforced, countdown accurate |
| Payments | Stripe works, 80/20 split calculated, subscription activates |

### Performance Targets

- AI Response Time: < 3 seconds
- Page Load: < 2 seconds
- Image Upload: < 5 seconds per image
- Prompt Generation: < 10 seconds

---

## 12. BUDGET & REVENUE PROJECTIONS

### 6-Month Bootstrap Budget: $25,000

| Category | Month 1-2 | Month 3-4 | Month 5-6 | Total |
|---|---|---|---|---|
| Technology | $2,000 | $4,000 | $2,000 | $8,000 |
| Legal/Setup | $2,500 | $0 | $0 | $2,500 |
| Sara Stipend | $6,000 | $6,000 | $0* | $12,000 |
| Design | $800 | $0 | $0 | $800 |
| Marketing | $200 | $1,000 | $500 | $1,700 |
| **Total** | **$11,500** | **$11,000** | **$2,500** | **$25,000** |

*Month 5-6: Sara paid from revenue if $10K+ MRR achieved

### Technology Costs Detail

- Hosting: $200-400/month (Vercel/Railway/Replit)
- OpenAI API: $500-1500/month (scales with usage)
- Database: $100-200/month (Neon Pro)
- AWS S3: $50-100/month (portfolio images)
- Stripe fees: 2.9% + 30¢ per transaction

### Revenue Projections (Conservative)

| Month | Stylists | Subscribers | Bookings | MRR | Total Revenue |
|---|---|---|---|---|---|
| 1-2 | 5 | 25 | 1 | $50 | $275 |
| 3 | 10 | 150 | 5 | $300 | $1,425 |
| 4 | 15 | 300 | 10 | $600 | $3,600 |
| 5 | 20 | 500 | 15 | $1,000 | $6,000 |
| 6 | 25 | 750 | 20 | $1,500 | $11,500 |

### Month 6 Profitability

**Revenue:** $11,500/month **Costs:** ~$4,000/month **Profit:** $7,500/month 🎉

### Unit Economics

| Metric | Value |
|---|---|
| Avg Subscription Revenue | $2/month per subscriber (20% of $9.99) |
| Avg Booking Revenue | $225 per booking (15% of $1,500) |
| Cost per AI Conversation | ~$0.05 (OpenAI tokens) |
| Gross Margin | ~85% (after OpenAI costs) |

---

## 13. RISKS & MITIGATION

### Technical Risks

| Risk | Impact | Mitigation |
|---|---|---|
| OpenAI costs spike | HIGH | Set hard API limits, use GPT-3.5 for simple queries, implement caching |

| Risk | Impact | Mitigation |
|---|---|---|
| AI quality inconsistent | HIGH | Thorough testing with Sara, feedback loop, prompt refinement |
| Scale performance issues | MEDIUM | Load testing, database optimization, CDN for images |

### Business Risks

| Risk | Impact | Mitigation |
|---|---|---|
| Stylists don't promote AI | HIGH | Incentives for first adopters, Sara's outreach, proven results |
| Low conversion (free→paid) | MEDIUM | A/B test pricing, improve AI quality, add premium features |
| Competitor launches similar | MEDIUM | Move fast, build relationships, focus on quality over features |

---

## 14. NEXT STEPS

### This Week (Before Monday Start)

1. **Legal:** Draft founders agreement (Clerky)
2. **Banking:** Open business account, deposit $25K
3. **Planning:** Final review of this spec with Sara
4. **Technical:** Set up development environment
5. **Design:** Finalize question wording

### Monday (Kickoff Day)

**9:00 AM** - Sign founders agreements **10:00 AM** - File Delaware C-Corp
**1:00 PM** - Review technical roadmap **2:00 PM** - Platform walkthrough for Sara **3:00 PM** - Sara presents stylist targets **4:00 PM** - Set Week 1 goals

### Week 1 Deliverables

**Your Tasks (Technical):**

- Day 1-2: Training questionnaire system
- Day 3: AI prompt generator
- Day 4: Chat interface + credits
- Day 5: Test with first stylist

**Sara's Tasks (Fashion):**

- Day 1: Reach out to 10 stylists
- Day 2: Schedule 5 video calls
- Day 3: Get 2 verbal commitments
- Day 4: Draft stylist page copy
- Day 5: Complete first onboarding

---

## QUESTIONS FOR DEVELOPMENT TEAM

Before starting, please confirm:

1. **OpenAI API:** Account set up? Budget approved? API keys ready?
2. **Stripe:** Is Connect configured for revenue splits? Test mode ready?
3. **AWS S3:** Bucket created? Upload permissions configured?
4. **Database:** Neon account ready? Migration process clear?
5. **Timeline:** Can this realistically ship in 5 days?
6. **Testing:** Who will QA before Sara uses it?
7. **Deployment:** Production environment ready?
8. **Monitoring:** Error tracking set up?

---

## APPENDIX: KEY RESOURCES

**GitHub Repo:** github.com/TelesHealth/seamxy
**Live Site:** seamxy.com
**Project Start:** Monday, December 2024

**Technology Stack:**

- Frontend: React 18 + Vite
- Backend: Express.js + TypeScript
- Database: PostgreSQL (Neon)
- ORM: Drizzle
- AI: OpenAI GPT-4

- Payments: Stripe + Stripe Connect
- Storage: AWS S3
- Hosting: Replit/Vercel/Railway

**Contact:**

- Technical Lead: [Your name]
- Fashion Lead: Sara Merabet
- Equity Split: You 65%, Sara 30%, Pool 5%

---

**END OF SPECIFICATION**

Generated: December 2024
Version: 1.0
Status: Ready for Development

---

**This document is ready to hand to your Replit development team or any developers to begin building the AI Stylist Onboarding System.**
